It’s who you are and where you are.

It’s where you stand and what you stand for.

It’s your corner.

Your passion. Your purpose. Your thing.

Find it here. Grenfell Campus, Memorial University.
FIND YOUR CORNER
GRENFELL CAMPUS in Corner Brook is a small, interdisciplinary campus offering undergraduate degrees in arts, business, education, fine arts, nursing, resource management and science, and a master of arts in environmental policy.

With about 1,300 students, Grenfell Campus is considered more of a home than an institution. The campus is personal, comfortable and full of opportunities. Our student-teacher ratio is low, which means in many cases you’ll be researching and studying alongside with your professors from the start. You’ll get to know your classmates, who will become part of your support system; these relationships will develop into lifelong friendships.

findyourcorner.ca
Welcome to Grenfell Campus, Memorial University. Take a look around. Everyone you see in this book is from our campus. This is who we are. This is what we love to do. And we want you to be a part of it.

WE’RE PART OF MEMORIAL UNIVERSITY OF NEWFOUNDLAND

Memorial offers 100+ degree programs to a student population of almost 19,000. Students can expand their horizons at any one of our four campuses.

GRENFELL CAMPUS in Corner Brook is a small, interdisciplinary campus offering undergraduate degrees in arts, business, education, fine arts, nursing, resource management and science, and a master of arts in environmental policy. Corner Brook has all the amenities of a larger city but the charm of a small town. Movie theatres, galleries, restaurants, fitness centres and shopping malls are all within walking distance of campus. www.grenfell.mun.ca

ST. JOHN’S CAMPUS is located in the heart of Newfoundland and Labrador’s capital city, St. John’s, and is home to more than 14,000 students, each and every one flourishing in a comprehensive and cosmopolitan environment. Whether it’s shopping on Water Street, enjoying the music on George Street or hiking up to historic Signal Hill, there’s rarely a dull moment. www.mun.ca/undergrad

MARINE INSTITUTE, our second campus in St. John’s, is literally one of the largest and most comprehensive marine educational and applied research facilities in the world. www.mi.mun.ca

HARLOW CAMPUS in England gives students and faculty alike a chance to study abroad, creating a unique learning experience. www.mun.ca/harlow
DEGREE PROGRAMS BY CAMPUS

GRENFELL CAMPUS
(Corner Brook)

BACHELOR OF ARTS
English, environmental studies, historical studies, humanities, psychology, social/cultural studies, tourism studies*

BACHELOR OF BUSINESS ADMINISTRATION

BACHELOR OF EDUCATION
primary/elementary (consecutive delivery option only, administered by the Faculty of Education)

BACHELOR OF FINE ARTS
theatre, visual arts

BACHELOR OF NURSING

BACHELOR OF RESOURCE MANAGEMENT
sustainable resource management*

BACHELOR OF SCIENCE
computational mathematics, environmental science (biology or chemistry), general science, physics, psychology

MASTER OF ARTS
environmental policy

MINORS
art history, business, Canadian studies, classics, economics, English, environmental science, environmental studies, French, folklore, geography, historical studies, humanities, mathematics, philosophy, physics, psychology, religious studies, science, social/cultural studies, sociology, tourism studies

ST. JOHN’S CAMPUS

BACHELOR OF ARTS
anthropology, archaeology, classics, communications studies, computer science, economics, English, folklore, French, gender studies, geography, German, history, law and society, linguistics, medieval studies, philosophy, police studies, political science, psychology, pure mathematics, religious studies, Russian, sociology, Spanish, statistics

BACHELOR OF BUSINESS ADMINISTRATION

BACHELOR OF COMMERCE (co-operative) general or concentration in accounting, finance, human resources, labour relations and organizational behaviour, information systems, international business, marketing, operational research, small business/entrepreneurship, supply chain management and joint degree options available

INTERNATIONAL BACHELOR OF BUSINESS ADMINISTRATION

BACHELOR OF EDUCATION
primary/elementary, intermediate/secondary, music, post-secondary, special education, intermediate/secondary conjoint with diploma in technology education

BACHELOR OF ENGINEERING (co-operative) civil, computer, electrical, mechanical, ocean and naval architectural and process–offshore oil and gas option available within each of the undergraduate degree programs

BACHELOR OF KINESIOLOGY (co-operative option available)

BACHELOR OF MUSIC

BACHELOR OF NURSING

BACHELOR OF PHYSICAL EDUCATION (co-operative, general or teaching)

BACHELOR OF RECREATION (co-operative option available)

BACHELOR OF SCIENCE applied mathematics, behavioural neuroscience, biochemistry, biology (general, marine, cell and molecular, ecology and conservation), chemistry (general, computational), computer science (general and software engineering), earth sciences, economics, environmental physics, geography, nutrition, physics, psychology, pure mathematics, statistics and diverse joint/interdisciplinary options

BACHELOR OF SCIENCE IN PHARMACY

BACHELOR OF SOCIAL WORK

DOCTOR OF MEDICINE

*Program under review; please contact study@grenfell.mun.ca for details.
New companies beat the odds. Industries refine and innovate. Entrepreneurs make it big in competitive markets.

The world of business is an adventure, and our bachelor of business administration equips you to be bold, creative and critical as you venture out of school and into your career.

IT’S MULTI-FACETED

Business exists at the intersection of many fields: marketing, human resources, accounting, finance and others. Our BBA builds a foundation in all the essentials, and lets you concentrate on one of two growing areas of interest: contemporary business studies or small business and entrepreneurship.

IT’S PRACTICAL

Working in business requires a set of practical skills that can make or break your company, pitch or product. We hone the fundamentals—critical thinking, research and analysis, strong written and verbal skills—to make sure you stand out from the pack.

WHAT YOU’LL GET

You could join the national award-winning Enactus Grenfell team as well as the Grenfell Business Society. And if you’re a budding entrepreneur with a great idea, Grenfell’s Navigate Business Advising Centre equips you with tools and advice to help bring your venture to life.

WHAT YOU’LL NEED

You can apply for admission directly from high school. If you have attended another post-secondary institution, you can apply for advanced standing. You should meet with an academic advisor to discuss transfer credits and appropriate course selection. Please consult with our Recruitment Office for more information.

www.grenfell.mun.ca/business

COMPUTATIONAL MATHEMATICS

BACHELOR OF SCIENCE (B.Sc.)

Math is the language of the future. Our society has become more dependent on computational and technological innovation. As a result, the need for mathematics experts is greater than ever.

Our computational mathematics program will challenge you to explore the world through algorithms, calculations and logical reasoning. You’ll find yourself on the cusp of the evolution of many industries.

IT’S IMPORTANT

Solve equations. Detect patterns. Map trends. Analyze statistics. Mathematics here will teach you to investigate, to challenge and to solve complex problems. Increasingly, employers need graduates who can solve problems and think logically – just the skills you’ll develop through a degree in computational mathematics. You’ll get plenty of relevant experience that’s critical in today’s changing job market.

IT’S CAPTIVATING

Your classes are small and personal. Your professors are passionate about math, and will foster that passion in you. Your final project will challenge you to apply mathematics to a real problem such as designing an app, modelling the spread of a forest fire or determining the best location for a new coffee shop.

WHAT YOU’LL GET

Mathematics is applied in every modern industry. Your specialized mathematics skills can lead to employment in finance, computing or science and technology. Your problem-solving skills build a powerful general foundation for careers in design, education, law or medicine.

**EDUCATION**

*BACHELOR OF EDUCATION (B.Ed.)*

Every child is unique. They have unique personalities and talents. Unique hopes and dreams. Unique passions and struggles. And sometimes, the only way to really teach them is to learn about them – and from them – first.

True educators are lifelong learners, so at Grenfell you’re encouraged to keep your mind open to new people, ideas and perspectives.

**IT’S COMPLEX**

Crafting a lesson plan. Leading a class. Keeping your students inspired and active. Every aspect of teaching is intricate. Our program will get you ready to face the daily adventures with innovative classroom practices and up-to-date knowledge of child development theory, teaching and learning.

**IT’S INTENSIVE**

In just 16 months, you will be prepared to teach kindergarten to Grade 6. The program can be completed in four consecutive semesters, including a teaching internship in the winter semester.

**WHAT YOU’LL GET**

You’ll be taught by instructors with K-12 teaching experience. You’ll learn about child development, diverse learners and much more. By the time you finish, you’ll be ready to step into a fulfilling career teaching children and changing lives.

**WHAT YOU’LL NEED**

An acceptable prior degree that includes the specific prerequisite courses will be required. Students are strongly encouraged to meet with an academic advisor to discuss appropriate course selection. Please consult with our Recruitment Office for more information.

ENGLISH
BACHELOR OF ARTS (BA)

Literature connects us. Whether through a play by Shakespeare, poem by Newfoundland writer Al Pittman or novel by Margaret Atwood, people from different backgrounds and eras find common ground in their love of literature.

Our English program gives you the tools to engage, analyze and appreciate great works both new and old, Canadian and international.

IT’S CRITICAL
Finding new layers of meaning. Identifying patterns. Getting inside the head of an author. Understanding how politics and psychology shape a work of literature. All of these come from thinking critically and creatively – abilities we teach you from day one.

IT’S CULTURAL
You’ll explore other cultures through literature, and be part of one here in Corner Brook. The internationally renowned March Hare literary festival brings together a vibrant community of artists, poets and writers. You can also publish in Paper Mill Press, the creative writing society’s journal.

WHAT YOU’LL GET
You’ll study classic writers and graphic novels, children’s literature and modern poets. You’ll sharpen your writing skills and critical faculties. You’ll pick an area of concentration in modern literature, dramatic literature, Canadian literature, or take a combination of all three. You’ll be ready to pursue careers and further studies in journalism, public relations, advertising, education and tourism promotion, and English is a favoured first degree for many careers, such as law and medicine.

ENVIROMENTAL SCIENCE
BACHELOR OF SCIENCE [B.Sc. or B.Sc.(Hons.)]

From lush rainforest to barren tundra, the natural world is rich with complexity and beauty. It awes us when we step back, and intrigues us when we take a closer look.

At Grenfell we’re surrounded by wetlands, boreal forest, river systems and sub-Arctic tundra, so you have frequent opportunities to move beyond the textbook and into the field or the laboratory.

IT’S ADVENTUROUS
We believe true understanding comes from equal doses of analysis and experience. That’s why we spend time out in the natural world, at places like the Bonne Bay Marine Station in Gros Morne National Park. You might even study climate change in the Arctic or marine environments in Belize.

IT’S DIVERSE
Whether you specialize in biology or chemistry, you’ll find your degree will expose you to many areas of research. You might want to understand the impact of chemical pesticides or atmospheric pollutants, or focus on the ecology of organisms in freshwater and terrestrial environments. Whatever you choose, you’ll see that our multi-disciplinary program allows you to explore the science in applied and analytical contexts, priming you for success in a global industry.

WHAT YOU’LL GET
You’ll be taught by experts like Dr. Geoff Rayner-Canham, winner of the national 3M Teaching Award and National Science and Engineering Research Council of Canada Award for science promotion. And when you graduate, you could work as an environmental laboratory analyst or field scientist, or continue your studies in fields like environmental law or conservation go on to do graduate studies in your area of interest.

www.grenfell.mun.ca/envs
ENVIRONMENTAL STUDIES

BACHELOR OF ARTS (BA)

The planet needs champions. It needs passionate, informed advocates. It needs leaders who can balance the needs of industries with those of conservationists and the public.

In other words, it needs environmental studies students. Our program will equip you to steward the planet using a strong grounding in ethics, economics and environment.

IT’S URGENT

Our relationship with the planet needs to change. If we continue to use our resources as we have, we’ll soon be without them. Finding a way forward takes deep understanding and bold creativity, so we’re nurturing those talents in our students—the next policy makers, resource managers, activists, adventure tourism operators and journalists.

IT’S OUTDOORS

You’ll take courses in outdoor environmental pursuits, environmental ethics, expeditions and environmental impact assessments. They’ll take you outdoors into the rivers, mountains and bays that make the area surrounding Grenfell so breathtaking.

WHAT YOU’LL GET

You’ll kayak, ski and go orienteering. You’ll have the chance to help out with Grenfell’s industrial-scale composter, the carbon footprint project or our community garden. And most importantly, you’ll be ready to begin a career that respects and champions our precious, fragile planet.

IT’S APPLICABLE
The skills you develop here will serve you everywhere. Science cultivates analytical tools that help you to think critically and solve problems. So whether you’ve got a career in mind or are exploring your possibilities, you’ll find that a science degree opens doors for many future paths—from science teacher to lawyer, doctor to journalist.

IT’S ABSORBING
Studying science at Grenfell is exciting and multi-faceted. You’ll be dissecting frogs, gazing through our state-of-the-art telescope or tracking rare species through Gros Morne National Park.

WHAT YOU’LL GET
You’ll learn cutting-edge science. You’ll research, report and engage. You’ll choose three disciplines out of five options: biology, chemistry, earth systems, mathematics and physics. You’ll also have the option to take an honours degree, which will provide the opportunity to focus more intensely on your discipline.

HISTORICAL STUDIES

BACHELOR OF ARTS (BA)

Why are wars fought over religion, politics and trade? What brings about key diplomatic decisions and international treaties? What was it like when European powers first encountered native peoples?

History is more than dusty facts. It’s the living, breathing story of humankind – of processes and societies, philosophies and conflicts. By understanding history, you’ll better understand the contemporary world.

IT’S ILLUMINATING

Studying history won’t just equip you with facts and figures; it’ll give you a broader perspective on why things happened the way they did. You’ll learn to tease out the dynamics that shape each event, society and era. It’s an approach that not only teaches – it illuminates.

IT’S CHALLENGING

Understanding the past requires deep research and constant critical engagement. Toward the end of your degree you’ll be fully equipped to tackle courses with self-directed research components, something normally reserved for honours programs.

WHAT YOU’LL GET

You’ll probe for the truth and find new perspectives. You’ll develop skills in critical thinking and analysis, the ability to interpret information, defend an argument, and exercise judgment. You’ll have access to thousands of journals, books and databases through our vast library holdings, including our rare book collection. You might even be hired as a research assistant full-time during the summer or part-time through the year.

We think critically. We ask big questions and look for connections. We study ideas and challenge conventions. And when freedom is threatened, we defend it.

In humanities we believe education is the key to citizenship. So whether you pursue a career in journalism, academia or government, we prepare you to do it with integrity and leadership.

**IT’S INSIGHTFUL**

Imagine comparing Radiohead to Freud, Lorde to Virginia Woolf, Portal to Plato. Imagine delving into the minds of the greatest ancient, modern and Indigenous thinkers, and recognizing their teachings are still relevant today. Shift your perspective. Examine the way you think by exploring texts and theories that have shaped history and society.

**IT’S BOLD**

Humanities is thinking outside the box. Debating tough topics. Drawing unusual parallels between the old and the new. Challenging opinions, seeing beyond the status quo.

**WHAT YOU’LL GET**

You’ll think with imagination and vision. You’ll assess complex problems. You’ll write persuasively. You’ll graduate with skills that are prized in a world that demands flexibility.

NURSING
BACHELOR OF NURSING (BN)

Nurses are front-line health providers. They’re administrators, researchers and educators. They give direct and preventative care. Few careers are more rewarding or challenging. From the bedside to the corners of the world, nurses are indispensable.

Our partner, Western Regional School of Nursing, has been educating students for more than 40 years, and has graduated over 1,800 professional nurses.

IT’S WORLDWIDE
There’s a high demand for skilled nurses in hospitals around the globe, in communities and universities, in clinics and remote areas. A career in nursing can take you around the world, changing people’s lives through direct care, preventative care and beyond.

IT’S HANDS ON
You’ll have to think critically and make decisions informed by both ethics and evidence. You’ll need sound judgment and technological competence. You’ll face new, stimulating challenges every day, and draw on all your skills to address them.

WHAT YOU’LL GET
In our program you won’t be just another face in the crowd. Our low student-instructor ratios mean you’ll have individual attention and mentorship from the moment you begin.

WHAT YOU’LL NEED
To enrol in nursing, you’ll need to have completed high-school chemistry and biology, in addition to meeting the general university requirements. Enrolment is limited and selection competitive. Your application and supporting documents are required by March 1.

www.grenfell.mun.ca/nursing

PHYSICS
BACHELOR OF SCIENCE (B.Sc)

From orbiting planets to flipped coins, bright stars to tiny particles, physics helps us to understand how the universe works.

Our physics program is made for people who want to reach out and understand their world – the ins and outs of matter, the mysteries of space, time and the laws that explain everything we experience.

IT’S EYE OPENING
You’ll learn to conceptualize, design and implement your own experiments. You’ll grasp existing ideas, formulate your own hypotheses and develop skills that lead to careers in research and development, computing, education and more.

IT’S PERSONALIZED
At Grenfell our small class sizes allow for personalized instruction. You’ll have lots of direct contact with your professors, and plenty of time to ask questions, debate cutting-edge issues and explore the exciting discoveries of physics.

WHAT YOU’LL GET
You’ll be trained in digital imaging, image analysis and high-end computing. You’ll model subatomic behaviour from particle accelerators. You’ll gaze at the stars from Atlantic Canada’s largest astronomical telescope. You’ll research, calculate and understand. You’ll choose courses in subatomic particle physics, astronomy and cosmology.

PSYCHOLOGY

BACHELOR OF ARTS [BA or BA(Hons.)]
BACHELOR OF SCIENCE [B.Sc. or B.Sc.(Hons.)]

What makes behaviour normal or abnormal? How do you understand your own experiences? What motivates someone to do something others find unthinkable? Which is more powerful: nature or nurture?

People have wondered about the answers to these questions for centuries. At Grenfell, you’ll gain the skills to think critically and analytically to understand the mind and behaviour from a variety of perspectives.

IT’S CURRENT

Psychology is about building a solid understanding of one’s social and psychological development. What’s the impact of cyberbullying? What personality characteristics are associated with Facebook use? Why does stigma surrounding mental health still exist? Psychology is a journey filled with intriguing twists and turns, ending with answers that often run counter to intuition.

IT’S APPLICABLE

Psychology helps to build a set of skills that will serve you well wherever you go in life. High-level conceptual thinking, rigorous problem-solving and strong analytical capabilities are just some of the talents you’ll develop by studying psychology at Grenfell.

WHAT YOU’LL GET

Pursuing psychology at Grenfell is excellent preparation for graduate studies at the master and doctoral levels and for studies that lead to careers in business, health, education, medicine and law. And while you’re here you could get involved in the Psychology Society, which hosts psychology-themed events and holds graduation festivities.

It’s invisible and everywhere. It shapes us while we shape it. It’s stitched into an embroidered garment and woven through a crowded indie rock show. We’re talking about culture, one of the great shapers of meaning in human life.

At Grenfell we use anthropology, folklore and sociology to answer the questions of why we do what we do, both as individuals and societies.

**IT’S FASCINATING**

Social/cultural studies encompasses a vast set of approaches, methods and academic perspectives. This variety makes studying something as simple as a Grecian urn a revealing experience.

**IT’S FAR REACHING**

A degree in social/cultural studies won’t just take you on a scholarly adventure; it will set you on your own adventures too. The skills you develop here can lead to careers in social research, governmental organizations, social policy, community development and more. They’ll also provide valuable background for careers in business, human resources, law and social work.

**WHAT YOU’LL GET**

You’ll get to work with faculty members who have explored culture through many research concentrations, including Indigenous identity, women’s issues, rural development and the interrelationship of power and knowledge. So when you find a particular area of interest, we’re here to take you deeper.

SUSTAINABLE RESOURCE MANAGEMENT*

BACHELOR OF RESOURCE MANAGEMENT (BRM)

The population is growing, our climate is changing and demands on resources are increasing year after year. We need wise stewards to lead our precious planet into the future.

Our program equips you to be a pioneer in the field of resource management—using our resources to meet human needs, now and in the future, while also respecting the limitations of the environment.

IT’S UNIQUE

Sustainable resource management brings together natural resource science, economics, policy development and ethics. This unique combination prepares you for an engaging and relevant career in such areas as public service, private industry, policy development and environmental science.

IT’S VARIED

Your course load will span everything from oil and gas studies to biodiversity, so you’ll be capable of thinking about resource management from many different perspectives. And Grenfell is located in an ideal place to study resource management. The surrounding area is rich with minerals, thick with forest, and dotted with several provincial parks and ecological reserves and also Gros Morne National Park.

WHAT YOU’LL GET

You’ll be guided by expert faculty and hear presentations from guest lecturers and government and industry professionals. You could be involved in making Grenfell Campus a greener place through our composting program.

Weeks of rehearsal and set building. Weeks of working scenes and memorizing lines. Weeks of calming nerves and preparation.

Theatre turns hard work into bold, powerful expression. Our well-rounded program is building the next generation of theatre professionals: boundless actors and skillful technicians who bring the stage to life.

**IT’S COURAGEOUS**

Taking a script from page to stage involves more than memorizing lines or sewing a convincing costume. It takes a team of committed, courageous people to step out of their comfort zones and breathe life into the characters and sets.

**IT’S TECHNICAL**

Mastery in acting or stagecraft takes commitment, practice and experienced instruction. Our faculty and staff will walk alongside you for the whole program, pushing your boundaries, honing your craft, and preparing you for full-scale productions.

**WHAT YOU’LL GET**

Graduates from our program have been on Gemini-nominated TV shows, worked at Cirque du Soleil, performed at Stratford and been members of professional theatre companies locally, nationally and abroad. You’ll see audiences’ faces light up through the power of a well-timed line or crucial set change. You’ll even spend part of a semester in Harlow, England, studying under British theatre professionals and taking in some of the best theatre that London has to offer.

**WHAT YOU’LL NEED**

Enrolment in the theatre program is limited and the selection is competitive. Submit your theatre application by March 31, in addition to your general university admissions application. Depending on your specialization, you’ll be required to audition (for acting) or have an interview (for stagecraft).

Now more than ever, the tourism sector requires thoughtful, informed and creative people. It’s not just a matter of developing new landmarks, but showing sensitivity to an area’s cultural heritage and environment.

Grenfell’s tourism studies program develops well-rounded industry leaders, people who champion sustainable tourism using their smarts in business, economics, environment and resource management.

IT’S GLOBAL

Worldwide, tourism employs more people than any other industry. So whether you’re focused on cultivating local tourist sites or want to explore opportunities abroad, we equip you with the skills to succeed. Courses in marketing, ethics, sustainability and tourism give you a global perspective on the relevant issues.

IT’S REAL WORLD

We’ll make sure you know first-hand what the industry is all about. You’ll collaborate with peers, instructors and professionals in the field. You’ll learn how to plan and manage events. It’s a degree designed to give you the theoretical background and practical know-how to thrive wherever you go.

WHAT YOU’LL GET

You’ll study global trends and issues. You’ll be trained for careers in tourism consulting, marketing, leisure and management. You’ll be prepared to take on a leadership role in projects around the world, balancing your business sensibility with local sensitivity.

VISUAL ARTS
BACHELOR OF FINE ARTS (BFA)

Making art is about finding your voice. It’s about reacting to the world, to its joys and challenges, by making things – paintings, sculptures, prints and videos. It’s about conversation, debate and insight.

At Grenfell we’re surrounded by inspiring landscapes and brilliant artists, so whatever your medium, we provide a place for you to explore, develop and blossom.

IT’S BALANCED
Our program has launched many successful careers in art and art history by balancing the fundamentals of making art with the ideas and emotions that give it power. And you’ll have a wealth of faculty, staff and visiting artists to mentor you on your journey.

IT’S ACTIVE
From year one you’ll be making art, learning its history and cultivating your own perspectives. By year four you’ll be ready to develop your own independent body of work, and discuss your work one-on-one with your faculty advisor, auxiliary advisors and visiting artists. Throughout your time here you’ll take courses in drawing, painting, sculpture, digital imaging, art history, printmaking and photography.

WHAT YOU’LL GET
You’ll learn from faculty who are practicing artists pursuing scholarly projects. You’ll show your work in the Grenfell Campus Art Gallery, a regular venue for national and international shows. You could also spend nine weeks studying art history at Memorial University’s campus in Harlow, England. While you’re there you’ll make industry contacts, take frequent trips to London and visit cultural sites like Stonehenge.

WHAT YOU’LL NEED
Submissions should reflect involvement, curiosity and passion for the visual arts. We look for hardworking and creative people who take pride in their work. Enrolment is limited and selection competitive, so your application must be submitted by March 1 (in addition to your general university admissions application).

Lorraine Matthews
Changing the world takes more than just a vision for the future. It takes a rich knowledge of how things work today in institutions, governments and around the world.

Our master’s program prepares you to be a bridge that connects problems with solutions, people with purposes and our present with the future.

**IT’S UNIFYING**

Our program brings together Grenfell’s strengths in environmental studies, environmental science and sustainable resource management. By integrating these diverse fields of study, we’re training policy leaders to make a difference provincially, nationally and internationally.

**IT’S RIGOROUS**

Designing an environmentally healthy future requires sound thinking in fields as diverse as public policy, political science, geography, economics, biology and forestry. Our expert faculty, excellent library resources and hands-on orientation will deepen your understanding of environmental issues and broaden your set of tools.

**WHAT YOU’LL GET**

You’ll get to choose between a thesis-based program, which takes two years, and a research paper-based program, which takes one. Both options will place you in an internship that exposes you to the challenges of real-world practitioners in a government office, non-governmental organization, community organization or business.

**WHAT YOU’LL NEED**

Admission is limited and competitive. To be considered for admission, applicants should have an undergraduate degree. In special cases applicants without an undergraduate degree may be considered for admission based on professional experience. Applicants will be assessed for admission to the MA in environmental policy based on their interests, their potential to produce meaningful research and the availability of supervisors in the area of the applicant’s interest. Deadline: Feb. 15 for fall semester, Aug. 15 for winter semester.

UNIVERSITY TOWN, CITY SPIRIT

With about 20,000 people, the city of Corner Brook has the attractions of a larger centre while keeping its small town charm and laid-back vibe.

Whatever your thing is – shopping, hiking, painting, skiing – there’s something in Corner Brook for you.

We’re a thriving theatre town with many local and professional productions each year. Or you can visit a flourishing art gallery. Pop into a café or visit the local movie theatre.

Drop by an open mic night at Grenfell’s student pub or see a concert at the Corner Brook Arts & Culture Centre or the city’s civic centre. Visit downtown and enjoy some musical talent or discover emerging creative artists.

When you need to unwind, play in one of the city’s many sports clubs in local facilities. And the nearby civic centre is home to hockey games, a fitness centre and a walking track.

We are surrounded by some of the most scenic hiking trails, and mountain biking and snowshoeing routes. Or hop in the car and visit areas such as Gros Morne National Park, the Bay of Islands or the Port au Port Peninsula and embrace the province’s culture, history and beauty.
ADVENTURERS WANTED

Do you feel at home in the outdoors? Find your palms sweaty at the thought of fresh powder? Keep a snowboard in your trunk and hiking boots in your knapsack?

The west coast of Newfoundland is a hub of adventure in summer, winter, spring and fall. hiking trails criss-cross the area. There are spots to ski, snowboard, rock climb and zipline.

Marble Mountain is 1,700 feet of top-notch skiing and snowboarding – just 15 minutes from campus. And a short car ride away is Gros Morne National Park, a world heritage site with marine inlets, rich forest and glacier-carved fjords.

We’re surrounded by some of Canada’s most beautiful wilderness. Cliffs. Mountains. Beaches. There are caves to discover, bike trails to barrel down and climbing routes to shimmy up.

It’s all close to campus, ready for you to explore.
YOUR HUMBLE ABODE

Living on campus at Grenfell is inexpensive, convenient, safe and most of all, fun. You can get to know people during a snowshoeing trek, a water fitness class, or a relaxing movie night.

About $400 a month – that’s all. For everything: a private bedroom, phone, wireless Internet, a place to cook, laundry facilities and parking.

Whether you choose to live in residence or a chalet-style apartment, you will get your own bedroom and bathroom shared between two or four people. And we’ve opened a new residence with 200 more private bedrooms. With this new addition, half of our students live on campus and are part of a tight close-knit residence community.

First-year students who apply by March 1 are guaranteed a room for the year. Apply online at www.grenfell.mun.ca/res and pay your $20 application fee.
GETTING YOUR BEARINGS

You’ve arrived on campus, made some new friends and taken a look around the facilities.

Now what?
We’ll help you get your bearings. We’ve got barbecues, campus tours, concerts and survival sessions to get you settled in. Next, you’ll want to familiarize yourself with the free student services available to you.

• **Academic advisors:** they’re the people to see when selecting courses.

• **The Learning Centre:** where you can take advantage of instructional assistance, supplemental instruction, peer tutoring and career development services – all for free. If you’re a student with a disability, we can help you with the accommodations you need. We also have dedicated staff people to improve the experiences of international and Indigenous students.

• **On-campus jobs:** you can check out on-campus job opportunities online. About 600 student jobs are available every year.

• **Our library:** Grenfell’s Ferriss Hodgett Library is part of Memorial’s massive library system. It’s where you’ll go to access printed and online materials, and is a great study spot to boot. You’ll have 24/7 access to 50,000 e-journals and more than half a million e-books. The staff can help you research in person, by phone or via online chat services.

• **Career development services:** they’ll help you develop a career plan. They’ll also hook you up with skills, resources and contacts to help you reach your goals. You can avail of mentorship programs or opportunities which boost your resume through volunteerism.

• **Medical services:** make an appointment with a physician or learn about healthy living through wellness programs offered by the Western Regional School of Nursing. And there are counsellors here to address your mental health needs.
STAYING ACTIVE AND HEALTHY

Our facilities make it easy to de-stress, blow off steam, and stay in shape all year, especially during the winter months.

We’ve got a 25-metre swimming pool, a double gymnasium and outdoor multi-use courts. At the nearby Pepsi Centre you have access to two ice surfaces for skating or hockey, an indoor walking track and a full fitness centre. You’ll have everything you need to get active and involved, whether it’s a pick-up game of hoops or some lunchtime snowshoeing.

Competitive sport is a priority for Grenfell. Our competitive teams train in our newly renovated gymnasium, play in local leagues and compete in regional tournaments. Some of our teams have included basketball, volleyball and curling.

YOUR STUDENT ADVOCATES

They’re passionate about all the issues that affect you, from health benefits to tuition changes.

They’re your Grenfell Campus Student Union.

They have also provided seed money for student societies like Oxfam Grenfell, Enactus Grenfell and the Ski and Snowboard Society. There are clubs and societies for most anything you can imagine. Parkour. Classics. Psychology. Anime. Just to name a few.

Visit www.gscuonline.ca for a full list of societies, as well as information on events, campaigns and student employment.
IF YOU’RE THE TRAVELLING TYPE

You might want to check out our exchange options. Students have the opportunity to visit our campus in Harlow, England, for part of a semester. You’ll take in the theatre productions, see gallery exhibits and visit cultural landmarks like Stonehenge and the London Eye.

The Frecker Program is for people who want a real taste of French culture. You’ll travel to the French territory of Saint-Pierre et Miquelon, off the coast of Newfoundland, for an intensive one-semester French immersion program.

Grenfell is also a member of the National Student Exchange (NSE), which allows our students to pay Grenfell tuition fees while spending a semester at an NSE member university in Canada or the United States. Our students have studied in places like Oregon, Florida, Hawaii and California.

The Belize exchange program lets eligible students take courses, visit white sand beaches, Mayan ruins and experience the lively Belizean culture.

There’s a growing number of exchange opportunities around the globe in locations like Jamaica, China, the Netherlands, Iceland, South Korea and Japan.

You also have the option to do an exchange in Norway, Sweden, Finland, Iceland or Russia through the North2North program, which is organized by University of the Arctic and an international network of educational institutions.
INNOVATIVE FACILITIES

• Atlantic Canada’s largest astronomical telescope
• New science labs
• Navigate Business Advising Centre
• Indigenous Student Centre
• New labs for GIS and digital multi-media
• New soil science research labs
• New Boreal Ecosystem Research Facility
• New residence complex which has received silver LEED (Leadership in Energy and Environmental Design) status

A GREENER CAMPUS

• Province’s only industrial-scale composter – diverting 20% of waste from landfill
• Fresh veggies and fruit grown in our on-campus community garden
• Unique environmental research and education opportunities
10 STEPS TO BECOME A GRENFELL CAMPUS, MEMORIAL UNIVERSITY STUDENT

(Based on September admission*)

SEPTEMBER–FEBRUARY
1. Explore Grenfell—visit grenfell.mun.ca to learn about programs, services and student life. Better yet, arrange your personal tour by emailing study@grenfell.mun.ca.
2. Apply to Grenfell—visit www.grenfell.mun.ca/prostudent.
3. Apply for housing—visit www.grenfell.mun.ca/res.

MARCH–JUNE
4. Get ready to hear from us—You will receive information about the status of your application, housing, scholarships and recruitment events. You’ll even get a phone call from a current Grenfell student to see if you have any questions.
6. Let’s chat—An academic advisor will meet with you in person, via telephone or email to ensure you are prepared for course registration. You can also email info@grenfell.mun.ca or call 1 866 381 7022.

JULY
7. Register for courses—Register for your courses online by visiting www.grenfell.mun.ca and clicking on Memorial Self-Service.

SEPTEMBER
8. Pay your fees—You can beat the lineups at the Bursar’s Office by paying fees through online banking. Check your balance from your Memorial Self-Service account and pay the balance from your bank account using your online banking service. You can set up Memorial University as a vendor within your online banking account and use your student number as your account number.
9. Attend orientation—Orientation activities start two days prior to the beginning of classes. You will attend social events and survival sessions, and meet other first-year students.
10. Begin classes—You’re now a Grenfell student. Attend classes, get involved on campus and enjoy the Grenfell experience!

* Depending on when you want to start, timelines may vary. Students may start classes in September or January.
Grenfell Campus students enjoy one of the lowest tuition rates in Canada. The government of Newfoundland and Labrador gives high priority to education, providing extensive funding to Memorial University. This commitment allows us to provide an affordable, yet high-quality, post-secondary education.

The costs ($CAD) for two semesters of full-time undergraduate study (2014-2015) at Grenfell:

* Canadian undergraduate students who have alternate health and/or dental coverage may opt out of the plan(s). Conditions and deadlines apply as noted in the university Calendar. All fees are subject to change.

** International students can opt into provincial/national student health and dental plans, if conditions are met. Please contact the international student co-ordinator at Student Services for more information at swilliams@grenfell.mun.ca.
# ENTRANCE SCHOLARSHIPS

In addition to the entrance scholarships awarded automatically to qualifying students entering Memorial University, Grenfell Campus offers five additional Grenfell-specific entrance scholarships:

<table>
<thead>
<tr>
<th>SCHOLARSHIP</th>
<th>VALUE</th>
<th>ELIGIBILITY</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>WARREN AND CATHERINE BALL MEMORIAL ENTRANCE SCHOLARSHIP (LIMITED NUMBER)</strong></td>
<td>$30,000 ($7,500 x 4 years)</td>
<td>NL HIGH SCHOOL APPLICANTS who are Canadian citizens or permanent residents are automatically considered based on mid-term results provided by high schools. A minimum final admission average of 90% is required. No application required.</td>
</tr>
<tr>
<td><strong>MEMORIAL UNIVERSITY ALUMNI ENTRANCE SCHOLARSHIPS (LIMITED NUMBER)</strong></td>
<td>$25,000 ($5,000 x 5 years)</td>
<td>NL HIGH SCHOOL APPLICANTS who are Canadian citizens or permanent residents are considered based on academic excellence, community involvement, national and international achievements, demonstrated leadership in school and extracurricular activities. This scholarship requires an application. Check with your guidance counsellor for details. A minimum final admission average of 90% is required.</td>
</tr>
<tr>
<td><strong>DR. LESLIE HARRIS MEMORIAL UNIVERSITY ALUMNI ASSOCIATION SCHOLARSHIP</strong></td>
<td>$16,000 ($4,000 x 4 years)</td>
<td>NL HIGH SCHOOL APPLICANTS who are Canadian citizens or permanent residents are considered based on academic excellence, community involvement, national and international achievements, and demonstrated leadership in school and extracurricular activities. This scholarship requires an application. Check with your guidance counsellor for details. A minimum final admission average of 90% is required.</td>
</tr>
<tr>
<td><strong>NON-RENEWABLE SCHOLARSHIPS MEMORIAL UNIVERSITY ENTRANCE SCHOLARSHIPS (LIMITED NUMBER)</strong></td>
<td></td>
<td>High school applicants who are Canadian citizens or permanent residents are eligible based on admission average. No application required. Scholarships will be awarded as funding allows, with the number and values to be determined. For information about Memorial’s entrance scholarships, visit mun.ca/scholarships.</td>
</tr>
<tr>
<td><strong>RUFUS GUINCHARD ENTRANCE SCHOLARSHIP</strong></td>
<td>$2,000</td>
<td>Student must be entering Grenfell Campus and demonstrate a commitment to the preservation of Newfoundland heritage and culture. This may be reflected in Newfoundland music, folklore, art or writing. This scholarship requires an application—check with your guidance counsellor for details.</td>
</tr>
<tr>
<td><strong>THE WILLIAM &amp; NAOMI LUNDRIGAN SCHOLARSHIPS</strong></td>
<td>$1,000 (2)</td>
<td>Student must spend at least one semester at Grenfell Campus. Will be awarded on the basis of scholastic achievement; however, character, economic need, and any other relevant factors may be considered. This scholarship requires an application—check with your guidance counsellor for details.</td>
</tr>
<tr>
<td><strong>THE CITY OF CORNER BROOK JR SMALLWOOD SCHOLARSHIP</strong></td>
<td>$1,000</td>
<td>Student must be a resident of the City of Corner Brook, in the final year of high school, and entering Grenfell Campus. This scholarship requires an application—check with your guidance counsellor for details.</td>
</tr>
<tr>
<td><strong>THE SISTERS OF MERCY ANNIVERSARY SCHOLARSHIP</strong></td>
<td>$1,500–$2,000 (varies from year to year)</td>
<td>Student must be from western/northern NL entering Grenfell Campus with full-time status. Will be awarded based on academic standing and promise. Consideration may be given to candidate’s financial circumstances. This scholarship requires an application—check with your guidance counsellor for details.</td>
</tr>
<tr>
<td><strong>THE VISUAL ARTS ENTRANCE SCHOLARSHIP</strong></td>
<td>$500</td>
<td>Awarded annually to a student commencing first-year studies in the visual arts program (BFA) at Grenfell Campus. The award is made on the basis of previous academic performance and the quality of the portfolio submission.</td>
</tr>
</tbody>
</table>

**NOTE:** For more information about scholarships, awards and bursaries, visit [www.mun.ca/scholarships](http://www.mun.ca/scholarships).
**ADMISSIONS**

If you are applying from a Canadian high school, you must complete the Grade 12 university preparatory program with a passing grade in each of the following subjects: English, mathematics, laboratory science, a social science or modern or classical language, and an elective. You must have an overall average of 70 per cent within the Grade 12 subject areas noted above. If you are missing any of these requirements or have any questions please contact the Registrar's Office at info@grenfell.mun.ca. Some specific programs may have additional requirements. Further admission details and an application for admission are available at www.grenfell.mun.ca/prostudent.

GET HERE, GET AROUND

AT THE AIRPORT
If you’re coming to Grenfell from within Canada, fly to Deer Lake (YDF), then drive 40 minutes to our campus in Corner Brook. If you are a first-year student, send your flight information to study@grenfell.mun.ca and our staff can greet you at the arrivals gate when you reach western Newfoundland.

If you live outside Canada, you will clear customs in cities such as Toronto, Montreal, Halifax, or St. John’s, then take a connecting flight to Deer Lake Airport. You should be aware of customs regulations.

AT THE FERRY TERMINAL
If you are travelling by car through the Maritimes or the New England states, you can catch the Marine Atlantic ferry from Sydney, NS, to Port aux Basques, NL.

COME SEE FOR YOURSELF
Visit our campus. We’ll arrange tours, meetings with faculty and even a chance to sit in on an actual university class.
If you visit us during the summer, book convenient accommodations right on campus.
